20 or Greater	\$75.00

Seal Shield Products help combat the spread of viruses and bacteria!

With Seal Shield products clients don't have to worry about liquid spills onto keyboards and mice from destroying their computers. In addition to being waterproof, Seal Shield products are also dishwasher safe.

Seal Shield's Silver line of products are Antimicrobial and help to fight the proliferation of viruses and bacteria on keyboards and mice. With the spread of Flu and H1N1 viruses in the workplace and schools, it makes great sense to utilize products from Seal Shield's Silver line to help with prevention.

While cleaning is essential, prevention is even better!
